Celebrity influence

Bella Hadid

Bella Hadid is a style chameleon, alternating between looking sporty and subversive, hyper-trendy and classic, and futuristic and soaked in vintage. She's a rare figure who simultaneously sparks TikTok trends and inspires the opus pieces of runway collections, but while her style choices vary so much from day to day, each reads as being true to her. The supermodel is neither careful nor shy when it comes to putting together outfits.

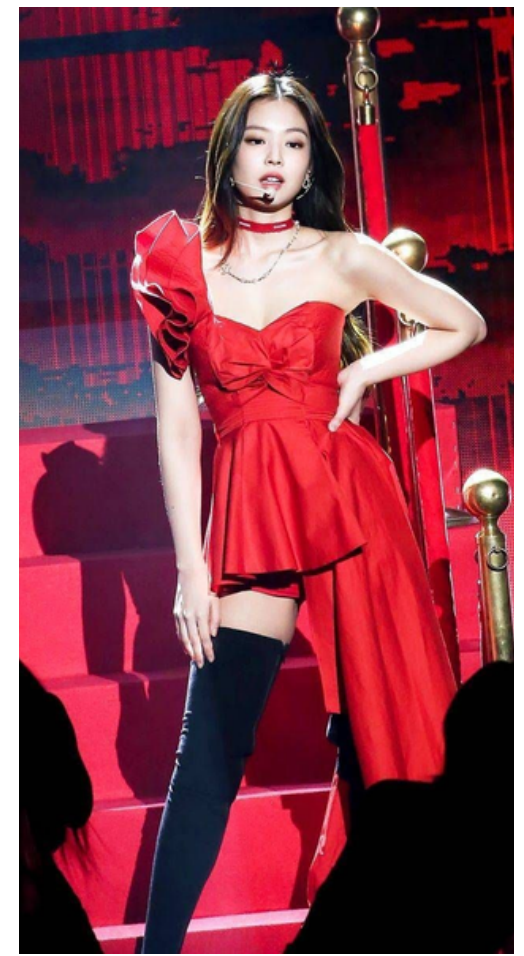

Hadid makes sure she's put-together even on her dressed-down days with a monochromatic fit, a sleek, pulled-back hairdo, and stunner shades.

Jennie

What is Jennie's style called?

She's known for her unique take on streetwear, which she pairs with feminine pieces like skirts and heels to create unique ensembles. Jennie's style can be described as “glamorous tomboy”—she doesn't shy away from wearing pants but always looks chic and put-together in them.
